1945 PROSPECTIVE ACREAGE WITH GOAL COMPARISONS

The following tables were compiled to show the first comprehensive comparison, by States and for the United States, of the Prospective (or indicated) 1945 crop acreages with historical acreage estimates and the 1945 goals. This report was developed cooperatively by the Bureau of Agricultural Economics and the Agricultural Adjustment Agency. The 1945 prospective acreages are from the March Prospective Plantings Report issued by the Bureau of Agricultural Economics on March 20, 1945. All other data, except goals, are from reports of the Bureau of Agricultural Economics.
